Office Action Summary	Application No. 10/596,396	Applicant(s) DUNNE, STEPHEN TERENCE	
	Examiner JONATHAN WOOD	Art Unit 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 June 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: ¶46, line 3 recites 'second stop 21' which appears to be a typographical error for the phrase 'second stop 22'. Appropriate correction is required.

Claim Objections

2. Claims 16, 22 and 32 are objected to because of the following informalities: Claim 16 recites "a first position" and "a second position" for the settable control arrangement in lines 16 and 18. This language is confusing because first and second positions have already been defined for the valve element earlier in the claim. It is recommended to amend the names of the positions of the settable control arrangement to "a dispensing position" and "a non-dispensing position" in order to avoid the confusion. Claim 22 recites "where in" in line 2 which appears to be a typographical error for the word "wherein". Claim 32 appears to be missing the word "wherein" before the phrase "the metered dose" in line 1. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 16 and 19-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Lines 16-19 of claim 16 inferentially claim the means/structure of the "settable control arrangement" to support the functionality of having the valve element only moveable between second and intermediate positions at one setting and movable to the first position in another setting. The settable control arrangement is never actively claimed and is therefore indefinite. It is recommended to actively claim the structure resulting in the desired functionality utilizing "means for" language in order to overcome the rejection.

Allowable Subject Matter

5. Claims 16 and 19-32 would be allowable if rewritten to overcome the 112 rejections above.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3754

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
